At the moment, we only have one member running our inside/outside distribution services, so if your order never is received please feel alright to politely nudge him from time to time. He does this work as a volunteer side-gig, unpaid, and at NO EXPENSE on your end, so your patience is appreciated in advance.

True Leap Press is a radical publishing collective based in Chicago, Illinois. We support the intellectual struggle and advocate for the building of mass-based projects for anti-racist, anti-capitalist, and anti-patriarchal political education. Our collective encourages any-and-all forms of revolt and insurrection against global anti-blackness, white supremacy, colonialism, capitalism, and heteropatriarchy. We also aim to facilitate the growth of a progressive political consciousness that is deliberately anti-patriotic and against all forms of U.S. nationalism.

In the coming years, we hope to increase our number of publications, establish infrastructure for printing and distribution, and grow our capacity to work across prison walls. Our current print publication is entitled PROPTER NOS. It offers a platform for Black and radical antiracist theoretical and cultural work — such as poetry, short essays, experimental writing, artwork — and will also increasingly serve as a source of commentary and analysis from imprisoned activists and grassroots abolitionist organizations.

Since April 2017, our publishing collective has distributed over 200 copies of PN I and II to imprisoned comrades across the country (at no charge, printed on stock paper, using black toner, in grayscale). We have ran advertisements and our communiqué in the newsletters of a handful of allied groups, such as Black and Pink: Chicago and in The Abolitionist, published by Critical Resistance (1904 Franklin St # 504, Oakland, CA 94612). These ads in turn attract requests for educational materials made by these groups' incarcerated readership. Feel free to circulate this catalogue amongst your networks. We also have some imprisoned comrades making photocopies and passing out the literature we send on their own, without any request to do so. This is fantastic news! We encourage more to take up this task.

Word is, imprisoned organizers in PA, CA, TX, WA, and IL are using PROPTER NOS as a prompt for ad hoc study groups. If you know anyone incarcerated who would like a free issue, please print out and get them this catalogue today. If you know of or work for a bookstore, info shop, or library who would like to sell or house a few hard copies, we are more than happy to split the sale on consignment. Just hit us up thru the (e)mails. All funds collected go toward future printing and distribution.

Finally, we are a group that offers free political education resources to everyone who requests it in good faith. WE DO NOT GIVE LEGAL ADVICE OR SUPPORT. We do not have the capacity to offer mutual aid in that way. WE ARE ALSO NOT AN ACTIVIST ORGANIZATION. Sharing intellectual resources is our collective's primary objective at the moment, and likely in the foreseeable future.

Publication description

Referring to the collective sense of "We" that inspires the mobilization and identity formation of a People, the Latin phrase "**Propter Nos**" is the title we chose for our first publication. This is because we believe that one of the central tasks of building consciousness amongst colonized, imprisoned, working class, and poor peoples is to build spaces where a core set of political principles can be cultivated amidst the contradictions and antagonisms inherent to revolutionary movement building.

True Leap Press believes that establishing a clearinghouse for the formulation of a vision of mass insurgency among differently situated communities of struggle is a necessary (and urgent) task in the present moment of white nationalist resurgence and patriotic liberal counterrevolution. We therefore obstinately oppose the mythology of U.S. exceptionalism and white manifest destiny, and do not presume that American liberal democracy is an inherent "good." Instead, we hope PROPTER NOS will serve as a forum for works that invigorate a different sense of common political consciousness, one rooted in the historical experiences of Black, Brown, Indigenous, and Queer movements mobilizing against the white capitalist civilization and nation-building project of the United States.
